Estación Marítima de Melilla

MELILLA. SITUATION

It is located in the northwest of the African continent, next to the Alboran Sea and off the coast of Granada and Almería. The city layout is arranged in a wide semicircle around the beach and the Port of Melilla, on the eastern side of the peninsula of Cape Tres Forcas, at the foot of Mount Gurugú and the mouth of the Río de Oro, 1 metre above sea level. The urban nucleus was originally a fortress built on a peninsular mound about 30 m in height.

MELILLA. DESCRIPTION OF THE PORT

The quality and the environment

The commitment to quality and the environment is already a reality in the port of Melilla. In this regard, we have increased efforts and adopted measures, initiatives and innovative approaches, not only to achieve strict compliance with existing legislation, but also to ensure our commitment to sustainability management much more ambitious.

For example, we have worked hard to develop and review procedures in accordance with ISO 14001:2004, and have developed outstanding initiatives such as the dredging of the marina funds or the creation and management of collection points for waste collection. We have also launched a pilot project to minimize noise pollution and reduce emissions of CO2 emitted by engines of ships moored in the harbor.

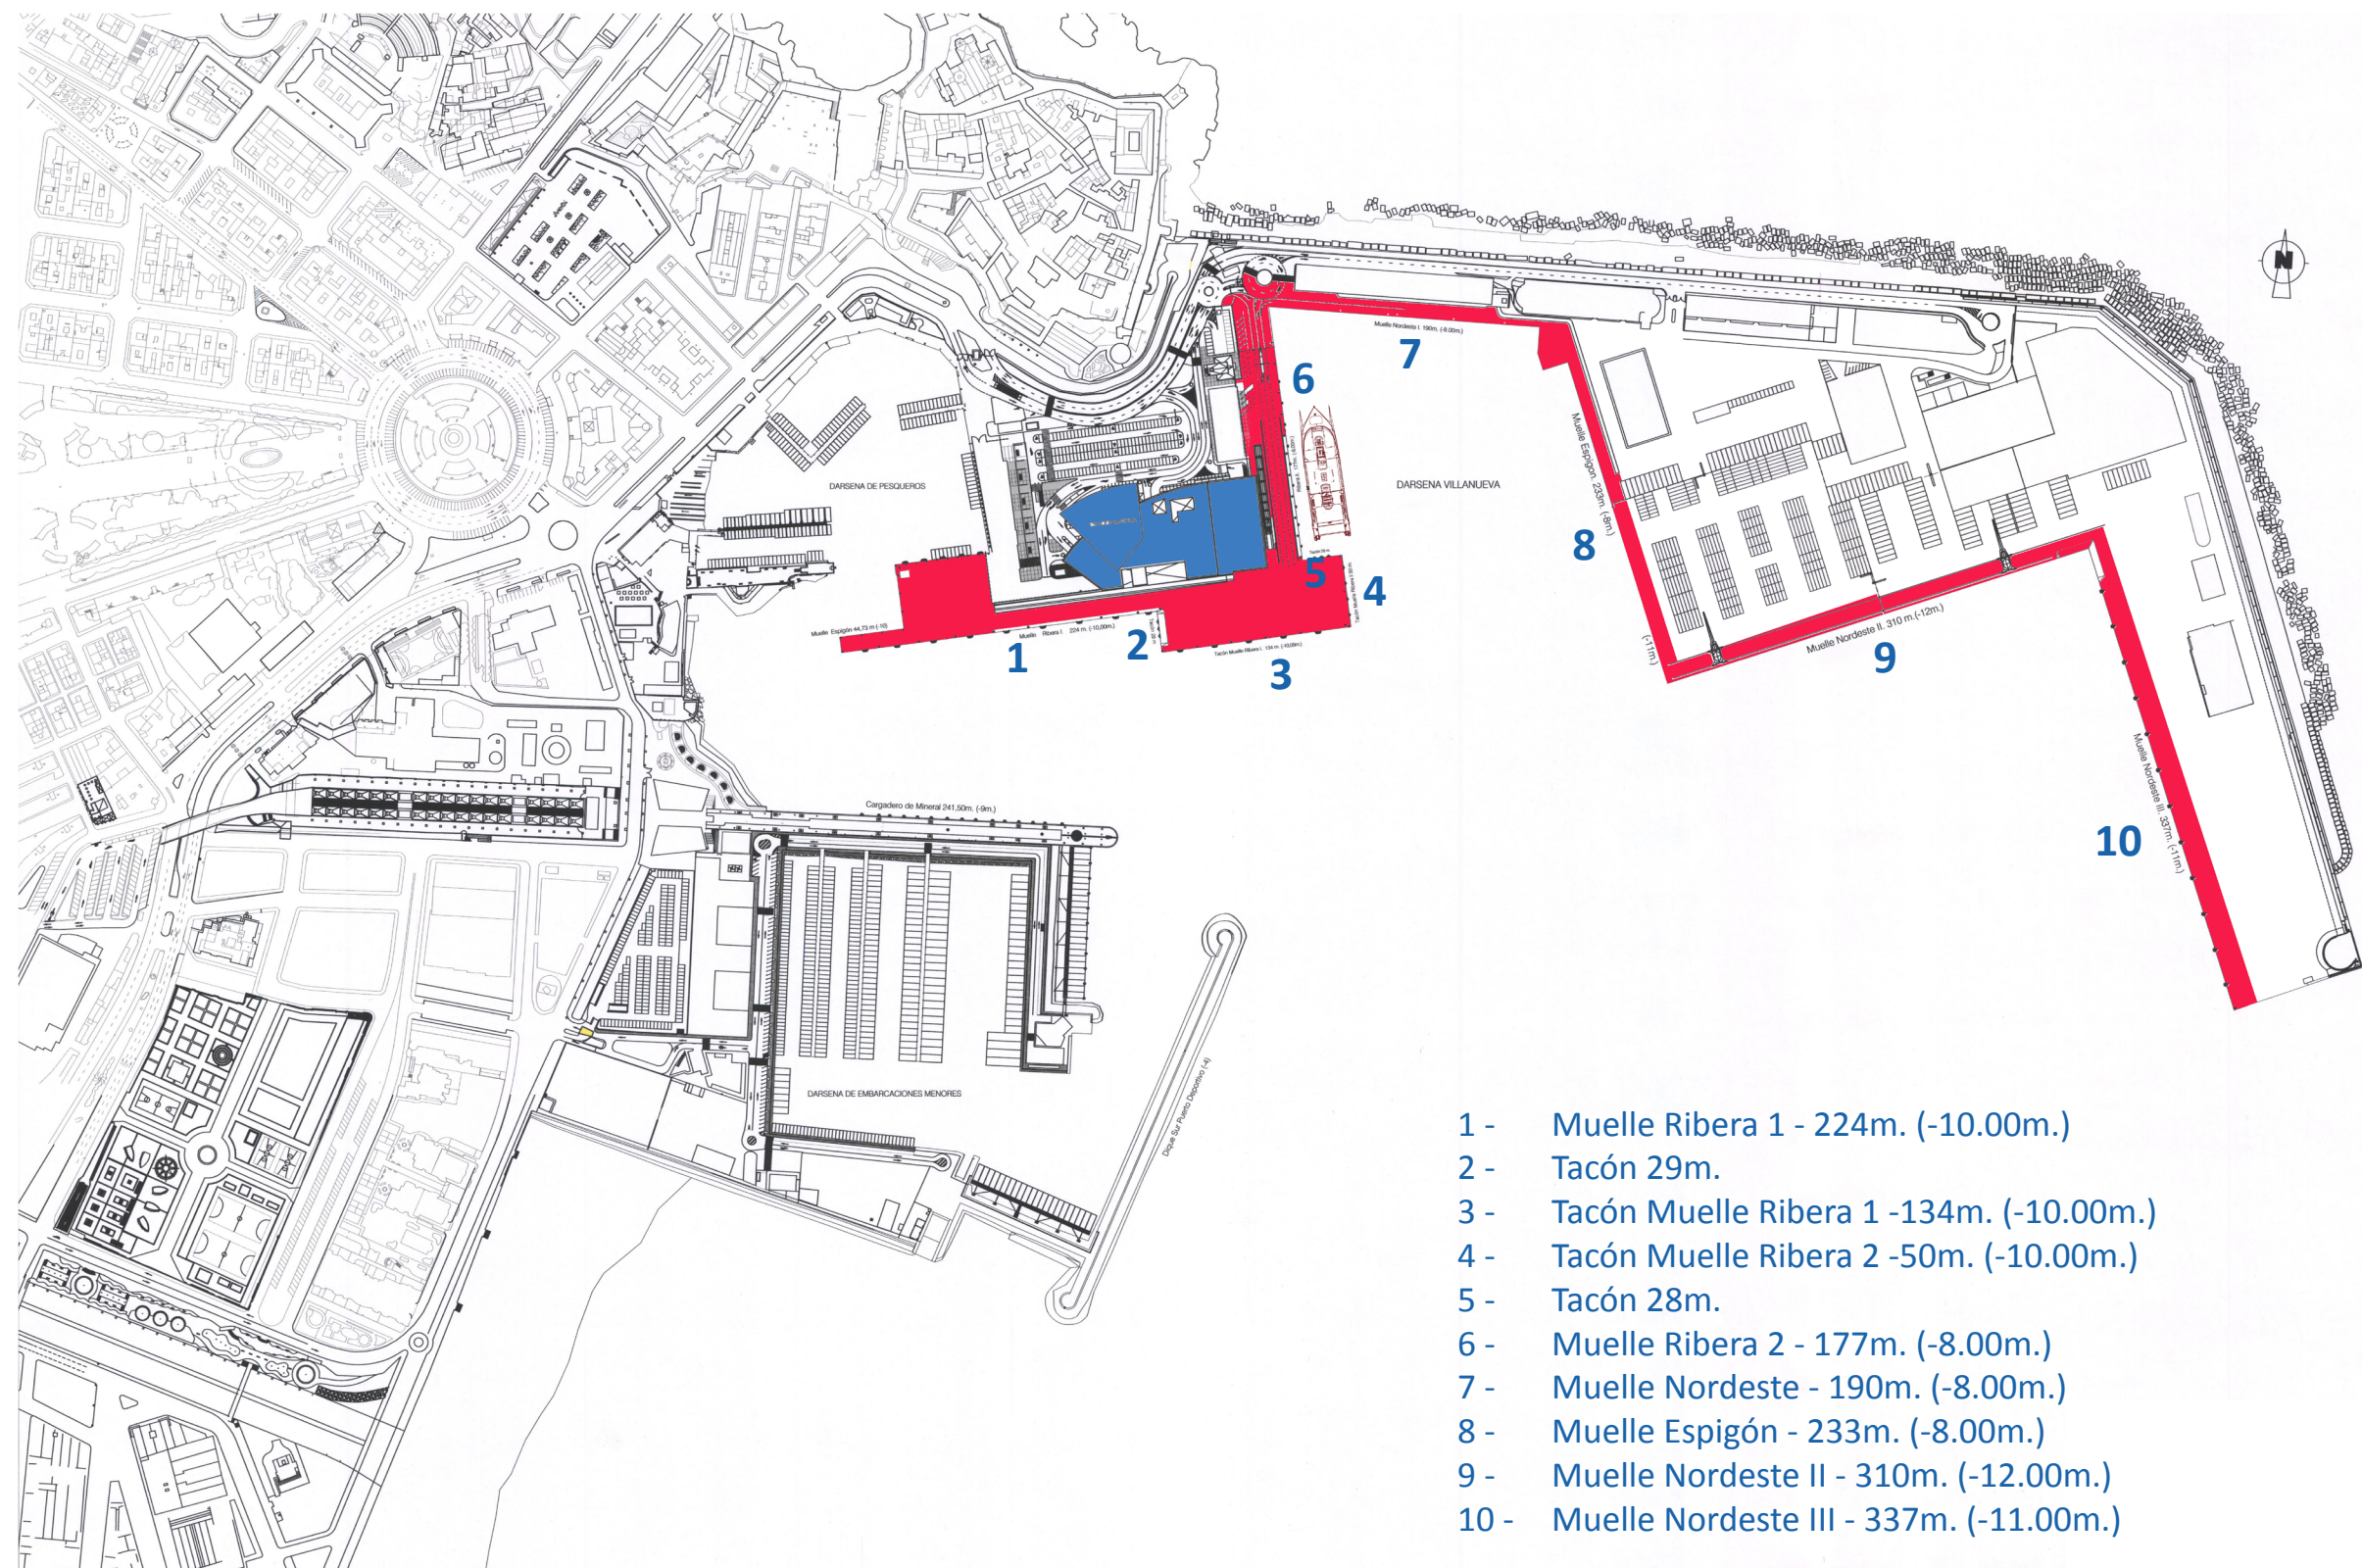

Pioneer in safety

In security matters we are not only one of the safest ports in the Mediterranean and Europe, but also we are pioneers in developing a plan for the protection of ships and port facilities, in compliance with R.D. 1617/2007. This is an ambitious plan that has made a significant investment in infrastructure and security, among other initiatives and actions, including a new control center, installation of closed circuit television (CCTV) cameras located throughout the campus port and an access control system to manage the flow of people and goods, reinforced perimeter fencing of areas to limit access to certain venues.

MELILLA. PLANE OF THE PORT

MELILLA. TECNICAL CHARACTERISTICS OF THE PORT

2.1.1. SITUACIÓN / LOCATION

Longitud /Longitude	02º 56' O (GREENWICH)
Latitud/ Latitude	35º 17' N

2.1.2. RÉGIMEN DE VIENTOS / WIND CONDITIONS

Reinante / Prevailing	NO
Dominante / Strongest	NE

2.1.3. RÉGIMEN DE TEMPORALES EN AGUAS PROFUNDAS O TEMPORALES TEÓRICOS / STORM CONDITIONS IN DEEP WATER

Largo / Length	1.400 Km.
Máxima altura de ola (2h = Hs) / Maximum wave height	7,34 m.
Máxima longitud de ola (2L) / Maximum wave length	347,00 m.
Ola significativa / Significant wave height	

2.1.4. MAREAS / TIDES

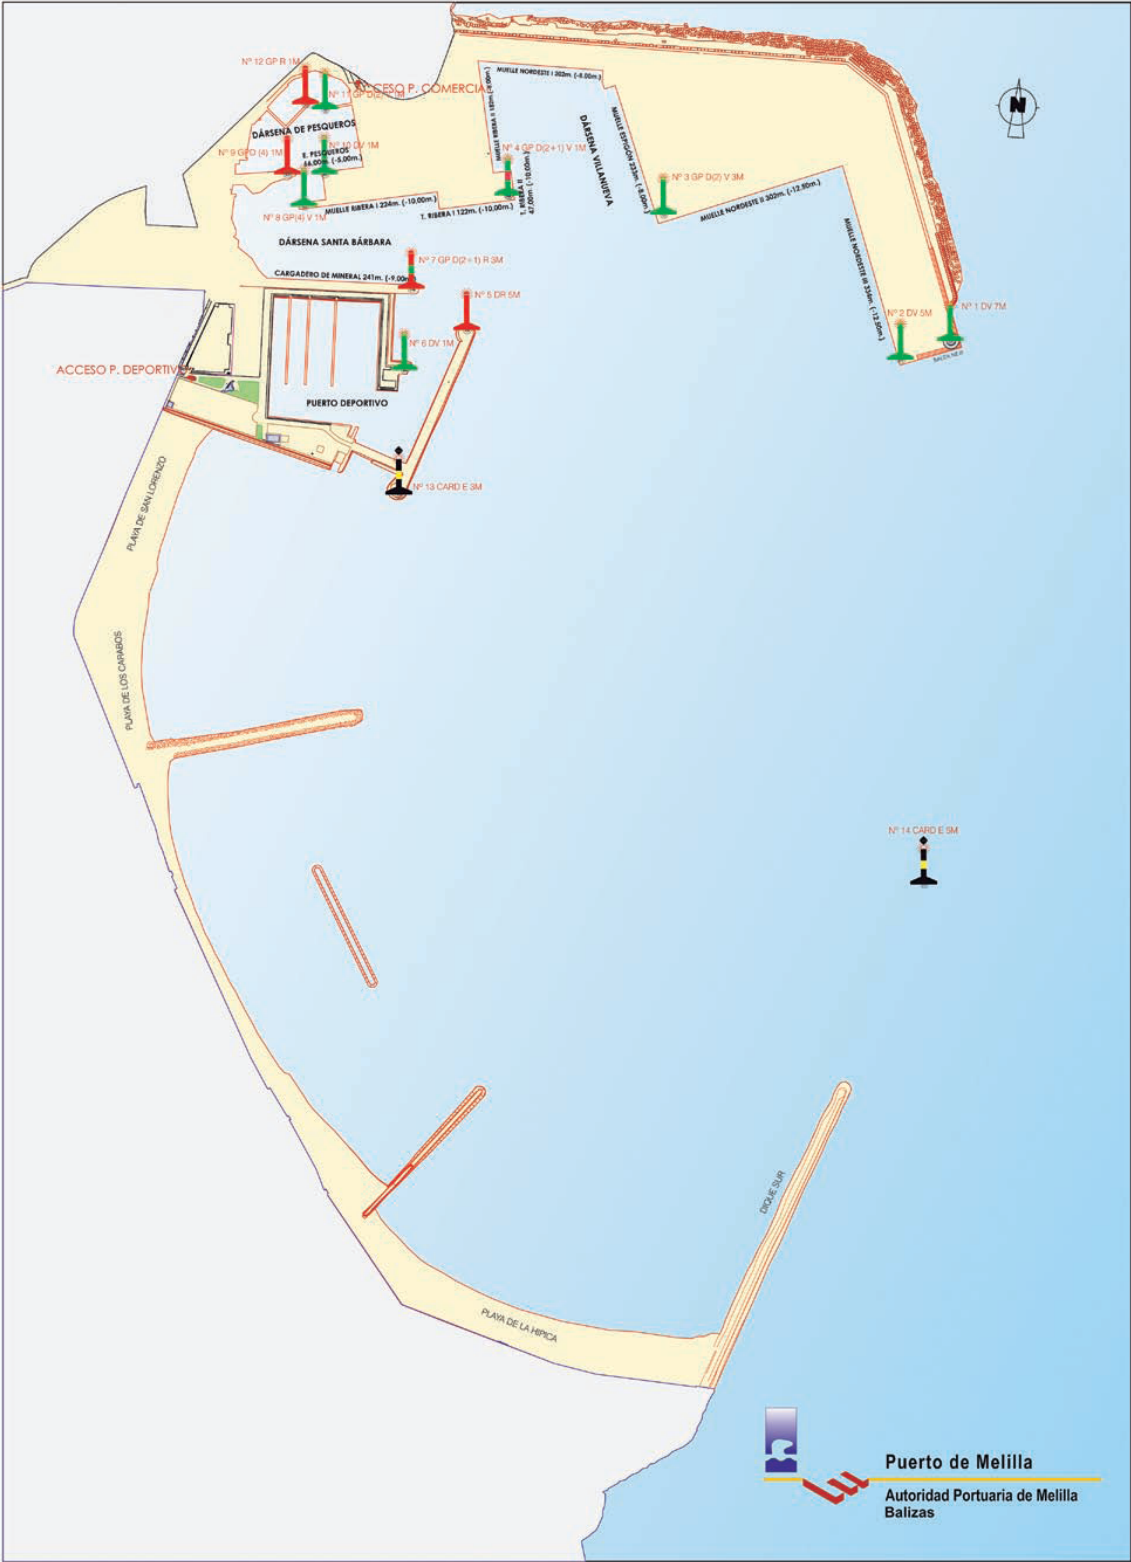

Máxima carrera de marea / Maximum tidal range	0'624 m
Cota de la B.M.V.E., respecto al cero del puerto / Height of LLW referred to port zero	-0'243 m
Cota de la P.M.V.E., respecto al cero del puerto / Height of HHW referred to port zero	0'381 m

2.1.5. ENTRADA / HARBOUR ENTRANCE

2.1.5.1. Canal de entrada / Entrance channel	
Orientación / Position	
Ancho / Width	
Longitud / Length	
Calado en B.M.V.E. / Water depth in LLW	
Naturaleza del fondo / Sea bottom characteristics	
2.1.5.2. Boca de entrada / Entrance mouth	
Orientación / Position	E - W
Ancho / Width	515 m.
Calado en B.M.V.E. / Water depth in LLW	12,50 m.
Máxima corriente controlada / Maximum recorded current	

2.2.1.1. Clasificación por dársenas / Classification by basins			
Nombre /Name	Longitud (m) / Length (m)	Calado (m) / Draught (m)	Ancho (m) / Width (m)
Del servicio / Port Authority			
Nordeste-3 1º Atraque	167,00	12,50	97,00
Nordeste-3 2º Atraque	167,35	12,50	97,00
Nordeste-2 1º Atraque	180,00	12,50	130,00
Nordeste-2 2º Atraque	130,00	12,50	55,00
Espigón-1 1º Atraque	160,00	8,00	20,00
Espigón-1 2º Atraque	73,24	11,00	40,00
Nordeste-1	201,83	8,00	10,00
Ribera-2 1º Atraque	95,00	5,00	18,00
Ribera-2 2º Atraque	87,00	8,00	15,00
Tacón Ribera-2	47,00	10,00	28,00
Tacón Ribera-1	122,00	10,00	47,00
Ribera-1 1º Atraque	110,00	10,00	15,00
Ribera-1 2º Atraque	114,00	10,00	25,00
Ribera-1 Espigón-1	44,75	10,00	10,00
Ribera 1 Espigón Pesqueros	66,00	5,00	25,00
Cargadero mineral 1º Atraque	170,00	8,00	15,00
Cargadero Mineral 2º Atraque	71,00	8,00	15,00
TOTAL DEL SERVICIO	2.006,17		
/ TOTAL PORT AUTHORITY			
De particulares / Private			
TOTAL DE PARTICULARES	0,00		
/ TOTAL PRIVATE			
TOTAL / TOTAL	2.006,17		

2.2.8. Plano esquemático de faros y balizas / Schematic plan of lighthouses and beacons

MELILLA.

In addition to the huge importance the cohabitation of four cultures contributes to the present of Melilla, one must not forget the privileged historical situation maintained by the city, and which has made it possible to retain the important heritages bequeathed by Phoenicians, Romans, Vandals, Byzantines and Arabs. All of this has made Melilla a singular architectural Museum which is as diverse as it is exotic and different.

The Old Town of Melilla, or “El Pueblo”, as it is affectionately known by Melillans, and which many also know nowadays as The Citadel, encompasses the fortified enclosure whose construction began in the fifteenth century, on the rock that served as a base for the old Rusadir of Phoenicians and Romans. This monumental whole is composed of four areas separated by a moat or a narrow pass. The first three advance into the sea while the fourth does so into the continent. Among the latter’s outstanding features, one should mention the Rosario and Victorias Fortresses, from where the shots of the “El Caminante” cannon were fired, which determined the present limits of Melilla.

Right in front of Las Culturas Square, in the city centre, we find the nineteenth-century Melilla composed of the small, stylish neighbourhoods of the San Carlos Fortresses, the San Miguel Fortress, the Citadel and Mantelete. The modern city of Melilla has a very special charm. The beautiful España Square, presided over by the Assembly Palace, is the nerve centre of the city of Melilla and therefore an area of much animation .
